

Discussion

On the status of the implementation of the IAU 2000 resolutions and on the latest proposals of the IAU Working Group on « Nomenclature for Fundamental Astronomy »

Issues to be discussed

1. Status of the implementation of the IAU 2000 resolutions
 - in the reduction of the various techniques
 - VLBI
 - GPS
 - SLR
 - in the Astronomical Almanacs
2. The AAS WG on the IAU 2000 Resolutions
3. Update of the IERS Conventions
4. New IAU rules for the adoption of IAU Resolutions (from NFA, P&E WGs)
5. Needs on nomenclature
6. Versions of the NFA Glossary in other languages?
